

BUS / TRAIN INTERCHANGE FACILITIES AT RAILWAY STATIONS SERVED BY STOURBRIDGE LINE TRAINS

A LOOK BACK TO 1968

The document is intended to show the major changes that have been made to bus services since the 1960's and it is interesting to compare the network in this document with that in the current Bus/Train Interchange document.

For each station currently served by Stourbridge line trains, the numbers of all bus routes that used local bus stops in 1968 are displayed, with the approximate time past each hour that each bus service is scheduled to depart.

Please note that the times are only intended as a guide and daytime times are from approximately 0900 to 1500 on weekdays and 0900 to 1700 on weekends. Evening times are from 1900 hrs onwards, although services may run to reduced frequencies after 2200 hrs. During the morning and afternoon rush hours, and during the transition period between daytime and evening services, departure times may differ. In addition, early and late journeys may not traverse the full route.

Stations highlighted in **red** are in Worcestershire.

Stations highlighted in **green** are in Staffordshire.

Stations highlighted in **blue** are in Warwickshire.
