

CAMPAIGN DOCUMENT

KIDDERMINSTER STATION

SLUG supported Worcestershire County Council in its bid to secure funding to rebuild Kidderminster station and improve the layout of its forecourt. It is therefore pleased that new station building opened in June 2020 and is a vast improvement on its predecessor.

However, SLUG is disappointed by the lack of cover and facilities on the Worcester bound platform. It is also disappointed that the forecourt improvements did not include a bus interchange. It will continue to campaign for these improvements in the future.
