SERVICE IMPROVEMENTS

SLUG commends the improvements made to train services over the past few years as a result of its campaigns.

- Improved weekend through services to and from London including Saturday evening and Sunday services.
- Improved evening services.

It feels that improvements to current services can still be made in a number of areas and is campaigning actively on the following improvements :-

- All Chiltern Railways services that currently terminate at Birmingham Moor Street and then run out of service to Stourbridge depot should operate in service at least as far as Stourbridge Junction.
- Chiltern Railways should not abandon the Stourbridge line when engineering works or other disruptions take place at the southern end of its line.
- There needs to be better spacing of evening services to form a regular service pattern along the line.
- Improved Sunday services are needed with the emphasis on earlier trains on the Stourbridge line on a Sunday morning.
